### **DEDICATION**

Col. and Mrs. R. S. McLaughlin

To Whom This Book Is Dedicated

#### "MR. SAM AND HIS LADY"

In Mocleon's Mogozine Colonel R. S. McLoughlin, offectionotely and respectfully known to thousands os "Mr. Som", referring to the fact that one of his roce-horses wan a gold teacup, which, by additional presentations, had been enlarged into a gold tea service, wrote these words:

"The things I cherish are harder-wearing than gold: the solid worth of lifelong friendships with men of good faith; the worth of a lifetime spent working at a job that drew the best from me and the men I worked beside— an association with a great industry and a great enterprise; a long life of good health, and sport in the outdoors. Above all these, I treasure the love of my wife and the affection of my family. Those are the things of real worth in my life. I own a gold teacup, but I don't drink out of it!"

It is the custom in many ancient Universities on that day in each year, when their pious founders are recalled in immortal memory, for some worthy to read in public the great chapters in Ecclesiasticus, which begins with these words "Let us now praise famous men." For most gracious communities of learning, (of which Queen's University is one, have long memories, especially where there is a debt to repay. Amongst our own founders, ancient and modern, no names will be more sincerely and more often held in honour than those of Mr. Sam and his lady, who have shared together gladness and sorrow, struggles and triumphs, interests and generosities, side by side for over sixty years. They will be forever praised amongst the latter day founders and greathearted benefactors of this University, which is the kindly mother of us all. It is, therefore, fitting that the students of Queen's, in this publication which records the unforgettable and happy youth of so many of them, should make a dedication to a man and woman of Canada, who, throughout the relentless and swiftly moving years of their long lives, determined to keep their hearts and their minds young, and have found joy and benediction in good works. Colonel R. S. McLaughlin is four years younger than Confederation and his wife is a few years younger than that. They have both been almost, as it were, contemporaries of this land of Canada since its far beginning and are still happily our own contemporaries Throughout their lives they have been one and undivided and each the complement of the other. They are both honorary graduates of this University, and those who have heard them speak, will not forget the eloquent simplicity, the clarity, and the vigour of the words they utter. Mrs. McLaughlin before her marriage was a school teacher, and, no doubt, her own continuing interest in education has helped to direct many of their joint benefactions to that noble cause. University owes to them McLaughlin Hall, Adelaide Hall, the Students Union, the John Buchan Library and many other contributions, known and unknown, from thoughtful and generous foundations and trust. The story of Mr. Sam's career is a part of the history of Canada. He has carried with him into these surging days the romance of our early frontier, the austerity, and the hard work of the pioneers who built this country, the deep unspoken certainties of a Christian home, and always the resilience and optimism of adventurous youth. Mrs. McLaughlin has been the perfect Wendy to her husband's irrepressible Peter Pan.

When he first began to earn his living, he toiled in his father's workshop, where perfect things perfectly made by

skilled hands brought honour to master and man and to the community which sheltered them. When the world moved into what is called the 'automobile age', Colonel McLaughlin and his brothers, with their fine ancestral tradition in the making of the best was ons in the world, with vigour and imagination started to build the new revolutionary machines. The rest of that story is a memorable chapter in the industrial history of our country.

Most of us if we were asked to choose the man and woman who in their lives and characters typify those qualities which we are proud and I think humble to claim as Canadian virtues, would name the subjects of this little article

A few months ago, the writer of these words was present at the 85th anniversary of Mr Sam's birthday. The guest of honour spoke better than anyone else and long after midnight was still the "life of the party." It was remarked that he was the only man of eighty-five with a voice like a Sergeant-Major and an arm like a blacksmith

But we, who are the benefit iaries of their generosity, honour Mr Sain and his lady not because they are rich, not because they are old and yet young but because they have been in very truth good citizens of a good land. In a generous country they have been generous people. They have not only been great givers but they have given graciously, willingly and wisely. Their numerous charities, which would take a long time to record, have been imaginative in their concept and fruitful in their appplication. Their home is a shrine of domestic happiness, of shining eves, of strong handiclasps of welcome, of thoughtful courtesy and abounding hospitality. In a democratic land, Colonel McLaughlin has remained a man of the people, simple, forthright, vital and honourable. He has been unspoiled by success and has never lost what is called the common touch. Amongst his joys must be the knowledge that in his honest and straight forward simplicity he is as much at home in the companionship of the lowly as he is in the presence of the great and that the thousands who have looked up to him as their employer have respected and revered him as a fellow worker and as a fellow man. All these fine qualities are shared in equal measure by his devoted lady. They have both been good neighbors in a country of good neighborhood and every student who comes to this place will find his life in this University richer and happpier because Colonel and Mrs. McLaughlin are in very truth faithful friends of Queen's.

Lemanko Brooken glor

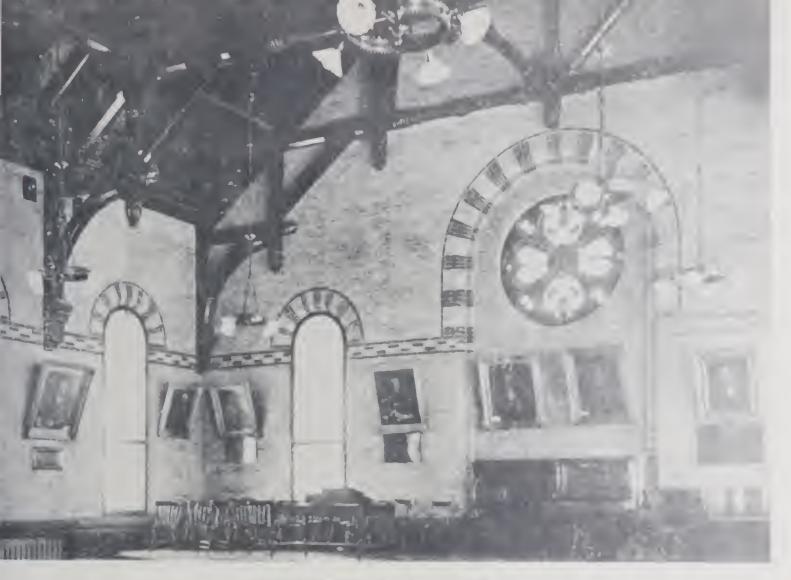

#### THE PAST FIFTY

The history of yearbooks at Queen's has been long and varied. With the publication of Tricolor '57 we are commemorating the first fifty years of college annuals at this institution. In 1906 the graduating class in Arts and Science decided to commerorate their career at the University by the publication of a yearbook. This first yearbook was a slender volume of exactly one hundred pages, with the major portion of the space being allotted to the one hundred and six members of the graduating class, whose activities, successes and idiosyncrasies were recorded at length. Each class had its historian, its poet and its prophet or prophetess whose task it was to record the history of the class and of each member, both before and after graduation and to forecast what the future would hold for its members. The 1957 volume, by contrast, has two hundred and eighty pages and only a minority of the space being devoted to the five hundred and seventy odd graduates in Arts, Medicine, Science and Nursing Science.

Early yearbooks were known as the "Queen's Yearbook" and were published by one or more of the Senior classes. In 1927, publication of the yearbook was assumed by the Alma Mater Society and one year later it became known as the Tricolor, partly to associate it with the famous teams which have borne that name for so long and partly to indicate that it was no longer the publication of those in the senior class. A new era in the publication of an annual at Queen's had begun. No longer was the book for graduates only. It began to illustrate more and more the activities of undergraduates with graduates being allotted a smaller portion of the space.

For the greater portion of the first fifty years, printing of the Tricolor was done by letterpress at Hanson and Edgar in Kingston. In 1953, the offset method of printing was introduced in the Tricolor, and since Kingston had no printers equipped to produce the book by this method, out of town printers and finally American printers had to be used. The present printers, Yearbook House of Kansas City, Missouri, have held the contract for only three years.

In the following pages we have attempted to illustrate the changes in life and in yearbooks during the past fifty years. The editors of Tricolor '07, (2007) will probably find the photographs in Tricolor '57 just as odd as we find those in the earlier yearbooks. Time will change the physical appearance of Queen's but its spirit and the Tricolor will continue.

#### AN ODDITY

#### FROM THE PRINCIPAL

A few years ago I wrote in the Tricolor; "Thirty and forty years on, these pages will be scanned with affectionate recollections by grisled veterans and complacent matrons and with unseemly hilarity and some wonder by their progeny." What is recorded in the Tricolor is not the arrival but the embarking of the Class of 1957.

The course of your voyage will be plotted year by year and during it some old landmarks will disappear and some stars will stay constant. One hundred years ago in 1857 Karl Marx sat waiting impatiently for the financial crisis of that year to signal the revolution which would usher in the dictatorship of the proletariat. Almost one hundred years later, Hungarian students convinced a wavering world that love of freedom still burned as it had centuries before when the lairds and commons of Scotland had written: "For it is not glory, it is not riches, neither is it honour, but it is liberty alone that we do strive and contend for, that which no honest man will lose but with his life."

You have the heritage of the past, with its great achievements and its great failures, some tragic, some merely shameful. You have the means of acquiring the knowledge of the present. The future will offer its challenges and opportunities.

In forty or fifty years, the world will be a very different place. Yet the problems which appear in new and complex guise will be old problems and there will still be stars to steer by. In your life as in the past, there is no assurance of survival or success. The larger faith is not pinned to personal success of the conventional sort. One must strive for and accept the opportunity to play one's part to the limit of one's talents in what unfolds. The larger faith is that the best of what one stands for will win through. One of the greatest of modern jurists used to quote his wife's translation of a Greek epitaph:

"A shipurecked sailor, buried on this coast, Bills thee take sail.

Full many a gallant ship, when we were lost, Weathered the gale."

To the Class of 1957 in its journeyings, my warmest good wishes. With the help of this book we shall share many pleasant recollections of achievement and friendship. My confidence in your growing wisdom, integrity and courage is my well based hope for the future.

#### THE ALMA MATER SOCIETY EXECUTIVE

#### FROM THE PRESIDENT

There was a period in the history of the Tricolor Year Book when only graduating students purchased copies as they contained their graduation pictures and those of their classmates. This practice has been replaced by the current ones in which students purchase a Tricolor every year and after graduation have a complete pictorial record of the people and events they remember from their years at Queen's. So Tricolor '57 will be the first in a series for some, the last in a series for others and for the majority it will be an "intermediate" edition.

Regardless of where you fall in this scale I hope that you will remember this year as a happy one. The Alma Mater Society Executive worked hard on your behalf and I consider it an honor to have been able to work with them. No President could ask for more loyal support than I received from your representatives. May I commend you on your excellent choice.

To the graduating students: this will be the last Tricolor you will purchase while still an undergraduate. Next September when you look at the calendar in your new office you will experience a hollow feeling when you realize that it is registration time at Queen's and you are no longer part of that picture. All the unpleasant features of your stay at Queen's will be forgotten and only the pleasant experiences will be remembered. You will daydream for a moment then return to your work and continue to prove to your employers, customers, clients or patients why Queen's is so proud of its graduates.

A. VIBERT DOUGLAS
Dean of Women

#### From The Dean

Out of all the experiences of these golden years at Queen's, you will carry away something of enduring worth—may it enrich your life in countless ways as you play your part in the building of happy homes, of healthier and more beautiful communities, and of a nation which must grow in its sense of integrity keeping its sights high in its relation to the world pattern of nations so painfully evolving around us. The challenges to each university graduate are varied and very urgent.

We wish for each of you individually a rich "flowering of the spirit" in the years before you.

Mital Dougles

#### From The President

Our years at Queen's have meant much to us. Truly these have been "golden years" in our lives. Friendships with our fellow students and the faculty have stimulated and enriched us. We have the chance to participate in many different activities which have provided outlets for our various interests and have helped to make our years at Queen's exciting ones. We have had the thrill of cheering our football team on to two championships. But above all, our years of study have provided us with a set of tools with which we can build our futures, both professionally and intellectually.

Sometimes we fail to realize how very fortunate we have been to have had the opportunity of a university education in a time of peace. We are a privileged few, and as such we have a very real responsibility to our community and to our country. We must try to repay our debt through our chosen work and by taking a sincere but not uncritical interest in the affairs of our country.

Sapientia et doctrina stabilitas. Good luck to you all.

## ARTS

R. O. EARL Dean of Arts

#### From The Dean

Ever since 1841 Queen's University has had students in Arts and each class may seem, to the historian, much like each other. They have all been studying, to some extent, the same subjects, and learning things, as is always true of everything in the Faculty of Arts, for their own sake. Times change and variety increases, but the acquisition of knowledge, the training of the mind, the wrestling with problems of values remain fundamentally the same

This class, like all others, has grown in knowledge, skill, and wisdom and yet, again as were all others, is unique. The experiences its members have had, the friendships they have made were theirs alone; and when all this comes to an end, the richness of memory, the thought of separating, the expectancy of things to come bring to each a flood of feeling unique for the individual, even though it is in the pattern.

And so I, a member of a much earlier class here, and an observer of many others, appreciate the conviction of members of this class that it is something special. Of course it is. In this book are recorded many things which will serve as cues to very particular and specific recollections. It will frequently be consulted, especially when a few are gathered together.

A group of people so well prepared for life as this one will undoubtedly succeed. It remains, therefore, only to express the pleasure of all of the Faculty at its prospects and their regret that such happy associations here have come to an end. Pleasant meetings there will be but there is nothing like reunions at Queen's. Many happy returns!

#### oro Earl

#### From The President

In newspaper cartoons the artist very often attempts to portray what to him are the good old days: and the picture that comes to his mind may frequently be of some very comfortable scene, such as a small farm kitchen, with a pot-bellied stove giving its heat to a contented family group. This may be the artist's conception of the days to remember. It will not be ours.

Our memories will be of college days; of those all-too-short hours when our only cares revolved around the proper timing to be given an essay, or the outcome of the all-important game within the hallowed walls of Richardson Stadium. We will remember Queen's for its blazes of autumnal glory, for the sunshine playing on the ivy-covered walls, for the marching of the bands and the winning team. We will remember too the winter term, which, with its social whirl of formals and concerts led us, carefree, into spring. Those were the fearful days. Those were the days when we feared retribution and best understood the meaning of the word nemises.

And now the four years are over. The numerals "five-seven," so often scoffed at by others when we were freshmen, now pass off the campus. But the bearers of the numerals will never really leave this place. We have tasted the Queen's spirit, we have digested it, we will defend its honor forever. We have graduated, and we must now earn our daily bread in a different world, where our cares will be greater and our responsibilities heavier. It is from this world that we will look back to the good old days. We will have these moments to remember.

R. G. H. SMAILS, Director School of Commerce

#### **From The Director**

The business world which you are about to enter is clamouring, more loudly and insistently than ever, for young men and women possessing the qualities of character and mind which it believes you possess, as graduates of Queen's School of Commerce.

With great opportunity, such as is yours today, goes great responsibility. I know that you will recognize and discharge the responsibilities arising out of your employment. There are however obligations of a wider citizenship—to devote some part of your energy and talents to the making of a Canada that is happy and not merely wealthy. You are equipped to play a leading prt in community and public affairs. Be sure to play it.

I and my colleagues shall not forget you and we wish you everything that is good.

**Dr. Elias Andrews,** Principal Oueen's Theological Callege

#### FROM THE PRINCIPAL

On every hand these days we are hearing of the enormous expansion of our Canadian life. Our economy is booming; our population is rapidly increasing; our demands for professional leaders are far outstripping our ability to supply them. Everywhere there is optimism concerning the future of this nation. It has been said that "the eyes of the world are on Canada." All this is encouraging. We cannot but be thrilled at the prospect of sharing the life of a country impregnated with so much promise. We must be careful, however, to put first things first, and not to confuse progress with economic welfare and social security.

"Ill fares the land, to hast'ning ills a prey,

Where wealth accumulates, and men decay".

These lines warn us that there are moral and spiritual values that far out-weigh all other considerations, and that someone must see to it that these values are preserved.

You who go forth this year from Queen's as graduates in Theology have been nurtured and trained in the Christian tradition, and have committed yourselves to Christ and His Church believing that herein lies the hope of providing the moral and spiritual leadership that can guarantee the stability of our national life. To be leaders in the realm of the spiritual in a time like this is a privilege matched only by its responsibility. With my congratulations is coupled the prayer that God may make you worthy of your high calling.

Elias Andrews

#### SCHOOL OF HEALTH AND PHYSICAL EDUCATION

F. L. BARTLETT, Director School of Health and Physical Education

#### From The Director

We say farewell to the 1957 graduates in the Course in Physical and Health Education. Because you have been a small group we have been able to know you personally and to appreciate your worth as individuals. We are sorry to see you go because we will miss the daily fellowship which was so much a part of you as a group. We are glad to see you go because we are confident that you will do well wherever the future takes you, and will be fresh recruits in the growing army of Queen's graduates who take pride in supporting everything for which this University stands.

## MEDICINE

DR. G. H. ETTINGER
Dean of Medicine

#### From The Dean

Just the other day you came, and now you go away. But you do not leave Queen's, for you have become a part of it; wherever you go the marks of your University will be plain for all of us to see. Thus parting becomes a sign of union, and every graduation a mark of accretion.

We welcomed you six years ago; now we bid you "goodbye," grateful for the privilege of assisting you in your maturity, and proud of your attainments. You leave this quiet place for a turbulent world; it would take a brave man to predict that world's reception of your gifts and aspirations. I hope that it welcomes you, and gives you happiness through service.

SH Stuye

#### From The President

After a long and difficult climb up The Mountain, Dante reached a high terrace encircling the peak and, sitting down, turned to the East, remarking to his guide—"All men are delighted to look back." So the graduates of the Class of 1957 may justifiably be pleased as they look back over the panorama of their six active years of accomplishments since the autumn of 1951. Their climb has been a challenging one, sometimes arduous, always interesting, ever rendered more valuable by the associations and friendships of university life.

The foundations for the future have been well laid at Queen's and in most cases the educational process has been far more than merely one of technical training. The university environment has provided culture as well as learning; generous and far-sighted ideals have replaced feelings of chauvinism and bias. At last qualified to practice the art and science of a liberal profession, the graduates now pause to thank the dedicated men who have made their present position atop the first mountain possible.

As the members of the graduating class are about to commence their trek across the windswept plains of a busy practice, their under-graduate colleagues extend congratulations and wish them well. May they ever show that enthusiasm and sincerity, that tolerance and humility which their teachers at Queen's have imparted.

ROBERT LANGFORD
Aesculapian Society President

## APPLIED SCIENCE

H. G. CONN
Dean, Faculty of Applied Science

#### From The Dean

Many Happy Returns! The Golden Anniversary of the Tricolor is an important milestone and it is fitting that you should dedicate this volume to Colonel and Mrs. R. S. McLaughlin, who have become such strong members of the Queen's family.

Although the number of students has increased from 162 in the School of Mining fifty years ago, to 1010 who registered in this 1956-57 session, and similar changes have taken place in accommodation and staff, many features are common to both eras. In an early annual report, Dr. W. L. Goodwin, Director of the School of Mining, said "Our graduates maintain the previous record of getting employment immediately upon graduation. This growing country can easily absorb all the men we can train for engineering work. It is only necessary to provide that the education shall be thorough." This situation where employment is obtained easily exists today, although it has not been so for each of the intervening years.

It is our fondest hope that you will take full advantage of the opportunities that lie about you at the University and in your business life after graduation, and we are confident that you will shoulder the responsibilities that will be yours.

26. Com

#### From The President

Four years have passed since we entered Queen's—four years in which we have been privileged to enjoy that very real thing called the Queen's way of life.

They have been years of preparation to take our place in the engineering profession. But the profession of engineering entails more than technical competence in a chosen field. It also entails the willingness to assume a position of responsibility in the community. No other association could have given us a better opportunity to achieve these ends.

To the University, we of the Class of Science '57 give grateful thanks for the help and understanding which we have received over these years.

# IT TOOK WORK

# BUT WE DID IT AGAIN

# THE YATES CAME BACK TO QUEEN'S

FOR THE SECOND STRAIGHT YEAR

# HERE'S THE COACH

In the span of 22 years a boy can be born, grow up, attend university and graduate. It took that same length of time for Queen's to win its second consecutive football championship. This analogy points up the rarity of this occasion and we sincerely hope that the next interval will be considerably briefer.

During the last 4 years the teams have compiled an impressive record of 18 wins, 8 losses and 1 tie; it is, therefore, logical that we came to accept such results as our wont. However, I vividly recall the immediate four years prior when we won only 6 games, losing 18, and tieing one.

We are all well aware that the road to victory was not an easy one, and it was the individuals' ability plus an intense competitive team spirit that provided the impetus for the team to come from behind on so many occasions and eventually realize their goal.

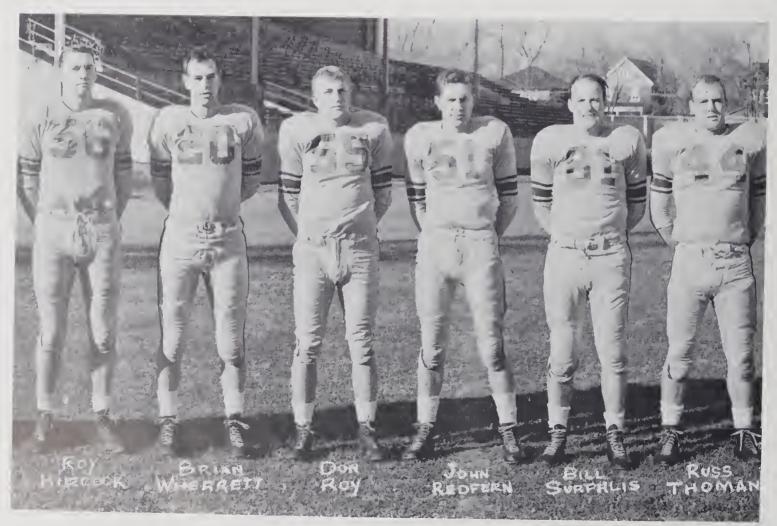

I should like to express my gratitude to the teams, the staff, the student body, and all the Queen's supporters who through adversity as well as triumph, never lost the true significance of "Cha Gheil" — never yield!

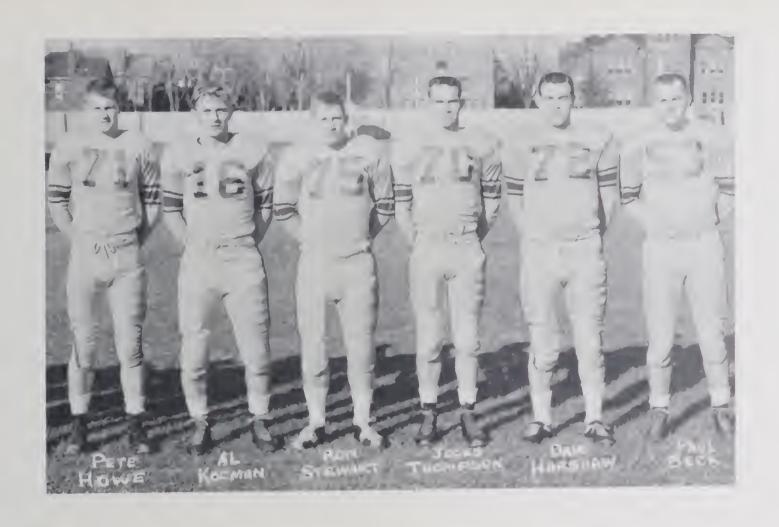

# AND HERE'S THE TEAM

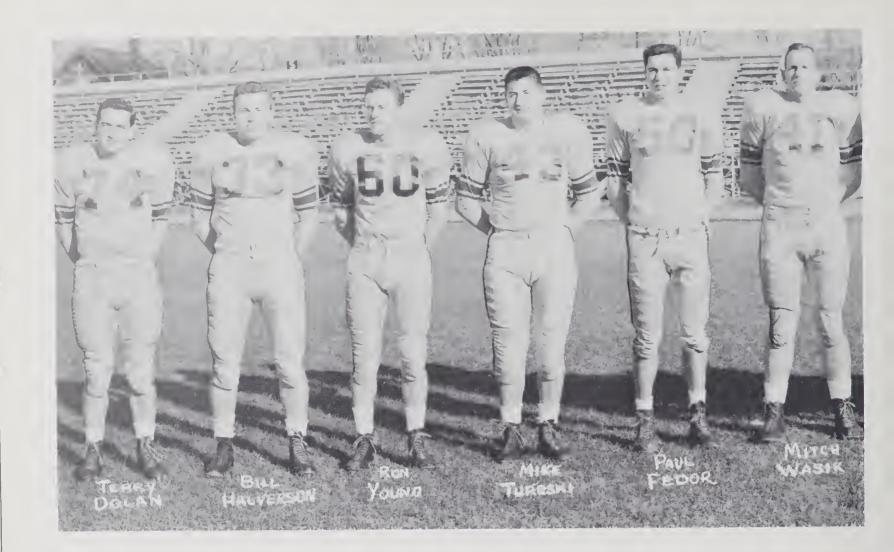

Page 147

# AND THESE WERE THEIR BOOSTERS

# QUEEN'S 7

## **QUEEN'S AT VARSITY**

The Golden Gaels started the season off with a tie in a very unimpressive game in Varsity Stadium, a game that neither team deserved to win. A last minute single by Queens' Jocko Thompson erased a Varsity's edge to make the final score 7-7.

The outstanding feature from a Gael standpoint was the playing of Queen's playoff man Ronnie Stewart who proved his value once more by scoring the only Queen's touchdown and also by playing over half of the game in the quarterback position. His success at his new position demonstrated the versatility of this great two-way player.

Three features of the game were prophetic of the rest of the season for the Gaels. Ronnie Stewart scored the major and went on from this game to win the intercollegiate scoring title, his first after three seasons of chasing the winner.

The second feature was the Gael's comeback as they twice came from behind to tie the game. They were to demonstrate in a couple of other games that they were truly a last half team, which was in contrast to the teams of the preceding seasons where lack of bench strength often led to last period let downs.

The third key factor was the toe of Jocko Thompson who was to prove to every Gael fan that the foot is still in football. There were to be several games over the rest of the fall in which the kicking of the lightest back in the league was to be a decisive factor in Queen's victories.

# QUEEN'S 35 WESTERN 0

# WESTERN AT QUEEN'S

In their home opener, the Golden Gaels showed that they had smoothed out the wrinkles in their attack as they handed the Western Mustangs the worst defeat in their history. By the time that the final whistle had blown, the Tricolor had piled up five touchdowns, four converts and a single.

Queen's counted a major score in every quarter with the odd one coming in the third quarter. Jocko Thompson converted the first four and then added a single after missing one conversion attempt.

John Moschelle turned in a fine game at the quarterback slot and proved that he was a very capable passer as he tossed three touchdown passes. Al Kocman was the receiver for two of the six-pointers and rookie Roy Hircock caught one for the final score.

The other two TD's were scored by Ronnie Stewart who moved well out in front of the intercollegiate scoring parade. In another great performance, Stewart counted on an intercepted pass and or, a running play from close in.

The Queen's front wall turned in an excellent game as they tied up the Western attempts to get an attack going. Among the best were Paul Fedor, Russ Thoman and Jim Hughes who was off on a fine start toward his second successive season on the college All-Star squad.

# QUEEN'S 1 McGILL 6

# McGILL AT QUEEN'S

Amidst talk of undefeated seasons and greatest of all time accolades that were being handed to the Gaels following their big win over the Mustangs, the McGill Redmen came to Richardson Stadium.

The big Red team had been the pre-season favourites but they had lost their first two games. The fans looked forward to another win for the Gaels, but the Redmen came the closest to derailing the championship hopes of the Tricolor that any team was to come all season. When the teams left the field at the end of the game the Redmen had pulled an upset and were 6-1 winners.

Queen's opened the scoring in the first quarter when Jocko Thompson kicked a single midway through the period. Then Paul Dingle put the Redmen out in front with a field goal. Half time score was 3-1. Dingle kicked another field goal for the visitors at about the halfway mark in the third quarter and that finished the scoring.

The game was even up until Gael quarterback Johnny Moschelle was injured on a punt return. While he was out of action the Queen's attack was disorganized and they were unable to get a concerted drive underway.

# QUEEN'S AT McGILL

In one week the Gaels had been transformed from a team that was a possible undefeated squad to a team with their backs against the wall It was in the latter state, produce or else, that the team traveled to Montreal to take on the Redmen.

Before the end of the game, the outlook was even bleaker for Frank Tindall's crew, as they trailed the McGill aggregation 15-7 with only ten minutes to go. The team came through with that all out effort that shows championship material as they fought back against the clock to score two converted touchdowns and add a single and pull out a 20-15 win 'The final touchdown was scored with less than a minute to play, and it was Queen's payoff kid, Ronnie Stewart who carried the mail on the big one.

Heroes in this one were the Queen's line who were out to prove that their showing of the previous week was just a bad day.

McGill twice took the lead and each time the locals fought back. The Redmen went ahead 7-0 before Karl Quinn scored a touchdown for the Gaels and Thompson converted to tie it. McGill went one point up on a single before the half, and then early in the third quarter added another touchdown to stretch their lead to eight points. Then came the Gaels great comeback. After Terry Dolan blocked a McGill kick and Rusty Radchuck recovered, Al Kocman scored a touchdown for Queen's which Thompson converted. Jocko's field goal attempt went wide for a point and the Tricolor was one down. Then Stewart went over to win the game.

# QUEEN'S 20 WESTERN 13

The hot and cold Tricolor cooled off a little after their comeback over the Redmen and were hard put to beat the tail-end Mustangs in Little Memorial Stadium in London. Despite a few lapses and a lot of fumbles the Tricolor were too good for their opposition and walked off with a 20-13 win.

Ron Stewart opened the scoring in the game as the Gaels took an early lead. On the last play of the half, Queen's pulled their oncea-year razzle-dazzle play which wound up with Moschelle completing a pass to Fedor for a touchdown. Gaels led 12-0 at the half.

It took the Mustangs only eight plays after the break to get back into the game as they scored a converted TD, Consentino doing the scoring. A few minutes later, Queen's opened their lead up again with Terry Dolan going over for the touchdown and Thompson converted. Early in the last quarter, the Mustangs once more pulled to within one touchdown of the Gaels, but Queen's held on until the end of the game.

# November 10 QUEEN'S 19 VARSITY 12

# TORONTO AT QUEEN'S

The Varsity Blues visited Richardson Stadium for the final game of the regular schedule, and the Gaels needed a win to force a play-off with the Blues.

On the first play after the opening kickoff, an alert Al Koeman grabbed a Varsity fumble and scooted almost thirty yards for a touchdown Jocko Thompson booted the convert and gave the Gaels a lead they were never to relinquish.

Queen's controlled the game for most of the rest of the first balf and Thompson added two field goals, one in each of the first two quarters before the Blues finally hit the scoreboard late in the second quarter Quatterback Harry Wilson scored for the Blues but the convert was no good and the Gaels led 13-6 at the half.

Late in the third quarter, Wilson hit Dick Risk with a long pass and the Toronto end went over to score the touchdown. The Gael line blocked the convert and Queen's still had a one point edge. For the rest of the game the Gaels fought off every Blue attack. With only three minutes left, Queen's had the ball deep in Toronto territory and Ron Stewart went for a touchdown from ten yards out. The score gave the Gaels a seven point lead. It was Stewart's sixth major of the season, and the thirtieth of his career at Queen's, and was enough to assure him of the Intercollegiate scoring title.

# INTERCOLLEGIATE CHAMPIONSHIP GAME KINGSTON NOVEMBER 17th

# QUEEN'S 4 TORONTO 2

It was a repeat performance for the Gaels in the playoff in many ways. They were up against the University of Toronto Blues for the second year in a row. They were playing in their home park again. And far more important, they were the winners for the second year running. In fact, even the way in which they scored the winning points was a repeat of their win over the Blues in the regular season the preceding year. It seems a good bet that the Blues will ask for a new script writer for the college loop.

The Gaels capped a hot and cold season by showing flashes of brilliance and flashes of non-champion plays during the game, but the Tricolor came through with the big plays when they were needed. Twice they came from behind, the second time with only a minute left in the game. It was their second last minute win of the season for a great clutch team.

The Blues struck early and marched downfield only to fumble on the Queen's goal line where Ronnie Stewart recovered to save the day for the Gaels. Twice more the visitors were stopped deep in Queen's territory before the Gaels started to pull up their attacking socks. It was the Tricolor who opened the scoring as Thompson booted a single early in the second quarter. Despite heavy Blue pressure the Gaels made the edge stand until the half time break.

It was late in the third period when the Blues finally hit the score sheet with Ross Woods kicking a single from twenty yards out to tie the game. Then midway through the final quarter Woods added another point and the Blues were in front for the first time and with only a few minutes to go.

The Tricolor fought back, and with gained control of the ball with little time remaining. They drove to the Varsity twenty and there the Blue line held for two downs. Then Jocko Thompson came in to kick. It was only one of the many times over the season when he had been called in in an emergency, but it was the time that mattered Jocko kicked the field goal and that was it, Queen's 4, Toronto 2, with less than a minute left. It might not have been the prettiest kick in history, but it counted for just as much.

# QUEEN'S INTERMEDIATE COMETS

BACK: G. MocDonold, G. Horrison, D. Cole, A. Robertson, N. White, J. Low, E. Hombrook, S. Wotts, R. Verroll, B. Toylor, P. Redfern. CENTRE: J. Perry (Ass't. Cooch), J. Clifford, (Troiner), M. Wasik, T. Housego, G. Steinberg, M. Killoly, R. Dorgovel, W. Compbell, D. Plumley, W. Truelove, R. Young, G. Robinson (Monager), J. Edwords (Cooch).

#### INTERMEDIATE FOOTBALL

QUEEN'S COMETS FOOTBALL TEAM — 1956

The Tricolor intermediate football team of 1956 played out a tough schedule of seven games, four of them away from home, finishing a good third behind Western and Toronto. The final standing in this league is shown above.

The junior Gaels were made up of a varied assortment of incoming freshmen and a few players who had been with the squad previously, and several potential seniors were uncovered in the course of the year. Linemen Ted Housego, Gerry Steinberg, Graydon Harrison, Don Plumley, Gord Mc-Broom, Stu Watts, Mac Killaly, Ron Maniacco, and Ernie Hambrook played some tremendous football against some really stiff opposition. John Turner was a standout running back in all the games, while Bill Truelove turned in some smashing games at fullback, with Al Robertson, Johnny Scoates, and Trev Kaye showed real ability at tackling and ball defence. Both Pete Redfern and Ron Belfoi showed spurts of brilliance at the quarterback spot, with Ron especially producing some sparkling passing in some of the games. All of these players, and perhaps others as well, could well be replacements for the many gaps left in this year's championship senior team.

The Comets' defensive line play featured the opening game played at East York Stadium in Toronto against Ryerson Tech, a well-drilled team with a good offence. This game was played under lights, a new experience for the Gaels, and they earned a laudable 14-7 victory to open the season.

The second game, Toronto at Queen's, was an exhibition, with the ever-powerful Baby Blues getting the jump on the newly organized Comets and leading at the half by 25-0. In the second half, the Comets came to life and outscored the Blues by 13-7, due chiefly to some fine passing by Belfoi.

FRONT: B. McKelvey, R. Belfoi, A. J. Quarrington, G. McBroom (Co-captain), P. Saegert (Co-captain), J. Scoates, G. Nichalls, J. Turner, J. Kaye.

#### INTERMEDIATE INTERCOLLEGIATE STANDINGS

		W	L	For	Agst	Pts
Western		4	0	68	39	8
Toronto		_ 3	1	98	35	6
Queen's		2	2	58	84	4
O.A.C	* *******	1	3	38	66	2
Ryerson		0	4	24	62	0

In their third outing played at London, the Comets put up a tremendous game against a fine Western team. On the opening kickoff, Brian McKilvey and John Scoates combined to run back the kick 112 yards for a touchdown, one of the outstanding plays of the year. Western led at the half by 12-6, and in the third quarter, they blocked a Taylor kick and passed for two touchdowns to go well ahead. Despite a Stu Watts recovery of a blocked kick, and some fighting defensive line play, the Gaels were gradually worn down and eventually wound up the loser 39-12.

In an exhibition game played a week later at McGill, the Gaels fumbled everything in sight and McGill whipped them soundly by 27-6. The Redmen intercepted four Comet passes for scores, and recovered four Comet fumbles to easily take command and they were really never headed. In a return game played in Kingston, it was a different story. The Comets rode roughshod over the McGill twelve, helped by Bill Surphlis' fine plunging at fullback, and some tremendous running by Turner, Truelove, Plumley, and Robertson. McGill were completely shut out by 23-0 score, the Queen's line outplaying them throughout the game.

With Belfoi's passing arm working the next Saturday, the Comet's gained sweet revenge for a bad beating by OAC the previous year, this time reversing the decision at home to the tune of 19-6. Turner again ran wild from scrimmage, while Taylor punted well, and the whole team played alert defensive ball to out-power the Aggies.

The final game of the year, played at Varsity Stadium in Toronto, was the big one. Taylor got off some long punts and quick-kicks, with Turner and Truelove cracking the Blue line, and the Comets led 14-0 at half time. Toronto came back with a veritable shower of completed passes in the third quarter and eventually went ahead 19-14, Belfoi again got the Gaels moving with some brilliant passing, and with the line playing inspired football both ways, Turner scored again, but the Comets were one touchdown short. The final score was 27-20, but it was one of the finest displays of fighting football a Queen's team has ever given, it ended a good season for everybody in a successful way, for the junior Gaels were never outclassed.

#### SENIOR BASKETBALL

The Queen's Golden Gaels climaxed their most successful basketball season since the war when they won their final game of the season to wind up as co-champions of the Intercollegiate Basketball League with the Assumption College Lancers. Over the course of the season the team put win streaks of three and five games around their only two losses to finish with a record of eight wins and only two defeats.

The Gaels opened their season with a home game in which they entertained the MacMaster Marauders. Led by Paul Fedor who scored 22 points, the Gaels romped to a relatively easy win, winding up on the right side of an 89-68 score.

In their next game, still at home, the Tricolor proved their worth as championship contenders by downing the defending champion Western Mustangs. The score wound up at 86-72, and could have been even greater if Frank Tindall had not rested his big guns when the Tricolor was sporting a thirty-point bulge. Don MacCrae took a turn as high point man with 21, while Fedor had twenty.

The third game was also at home, as the locals entertained the McGill Redmen. The visitors put on a surprisingly strong show and the locals were hard pressed all the way. The Gaels came from behind in the final five minutes to edge out an 80-75 victory. In this game, Purcell was top man with nineteen points.

Then the roof fell in on Gael title hopes, as the team took a disastrous road trip to London and Windsor. The Tricolor were edged 94-85 by the Assumption Lancers, and then the following night they were downed by Western 69-54 in the Tricolor's lowest point getting game of the season. Friday, Purcell was the leading scorer, his nineteen points being one more than Paul Fedor's total, while in the match with the Mustangs Gus Turnbull was the only Gael to reach double figures. Gus got eleven points.

The following Saturday, the Gaels were back at home and they treated the local fans to a thriller as they came from behind to edge Assumption 83-80 and that win moved the Gaels into a second place tie with the Lancers. Each team had two defeats, while Western had suffered only one loss. Fedor hit his scoring peak of the season as he pumped in twenty-six points.

# SENIOR BASKETBALL

JOHN MOSCHELLE

JIM HARRISON

"LASH" LATIMER

DON MCCRAE

The Tricolor then took to the road again, and this time they had a very good weekend, winning games in Toronto and in Hamilton. On Friday the Gaels once again put on a last quarter drive and they came on to edge the Macmen 69-67. Fedor again led with nineteen points, while Art Warren turned in an outstanding game and sank sixteen points. Moving over to Toronto the following night, the Tindall crew came out on the right side of a 76-74 score for another of those real close ones. Turnbull scored a basket to give the Gaels two points with only thirty seconds left, but the top man in the game was Johnny Moschelle who netted the highest Gael individual total of the season, twenty-eight.

Gaels kept their hopes for at least a share of the title alive by winning their final home game over the Blues, racking up a 79-56 victory. Fedor again hit well over twenty, with twenty-seven points while Greg Stone was second with fifteen

During the following week the team got good news from Toronto, where the Varsity Blues came through to hand the Western Mustangs their second loss of the season. That meant that the Gaels were assured of a first place tie with either Western of Assumption, as long as they won their final game of the season which was in Montreal against the McGill Redmen. The Gaels did just that as they handed the Redmen a 73-61 setback Meantime, the Lancers downed the Mustangs, and so Assumption wound up sharing the title with the Queen's team. In the final game Don MacCrae was the big man with twenty-three points.

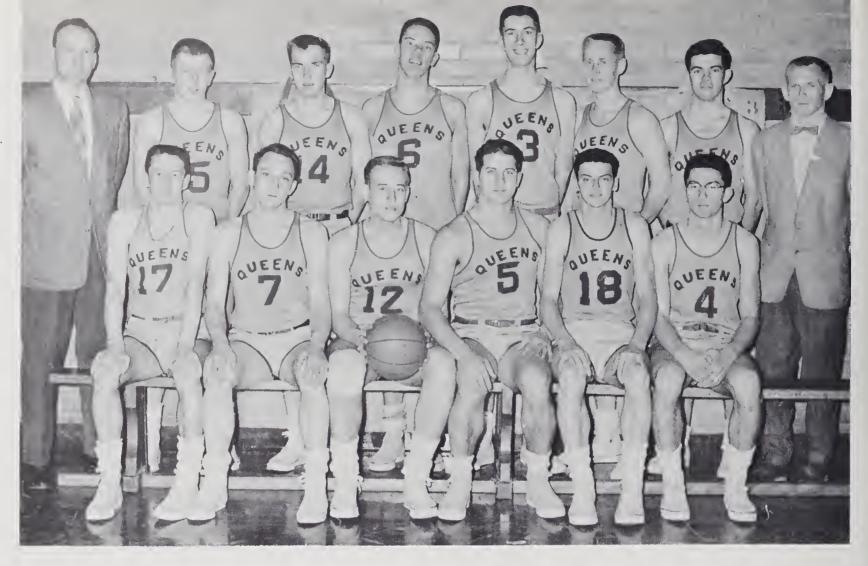

Three Queen's players were voted to the Intercollegiate All-Star team, with Paul Fedor getting a spot on the first team and MacCrae and Moschelle on the second. Those three also finished in the order named in Gael's individual scoring, with Fedor having 183 points.

	GAME	SCORES

BACK ROW, left to right: Al Lenard (caoch), Paul Tetra, Bill Horley, Bob Breighthaupt, Bill Anglin, Jim Siltala. Al Mills, Dick Salt (manager). FRONT ROW: Llayd Budgell, Wayne Eadie, Dan Bozic (captain), Terry Mattiali, Charlie Marrisan, Jim Pando.

### INTERMEDIATE BASKETBALL

This year's edition of the Intermediate Basketball Gaels came through with flying colors in a season in which they were playing better than usual opposition. In the new Intercollegiate Intermediate Conference, they finished in a second place tie with Osgoode Hall. Western were the winners of the championship.

Over the entire season, the JayVees chalked up a record of ten wins against five losses. In league play they won five and lost three, while they won five and lost two in exhibition games. Their league wins were over Varsity, Assumption, Waterloo College, Ryerson, and MacMaster and the league losses were to Western, Osgoode and OAC. The exhibition game losses were to Watertown Air Force who downed Queen's by about ten points in each of two games. Three of the Tricolor wins were in games in which they practically doubled the score on their opponents who were Clayton in one game and RMC in two. The other two wins were over KCVI.

The scores of the RMC games demonstrate the great improvement of the calibre of play that was shown when this team's performances were rated against the intermediates of two years ago. Two years ago, the JayVees played in the Ottawa-St. Lawrence Conference which RMC is in. RMC was one of that league's top teams this year, but they were no match for Queen's. Last year the JayVees played in the Border League of which Clayton was a member, but this year they doubled the score on Clayton. This shows a tremendous uplift in the type of game that this year's squad played. Coach Al Lenard can be very proud of the way in which his team performed this season.

The most consistently good men over the season for the Queen's team were Wayne Eadie, Jim Siltala, Al Mills and Terry Mattioli. Eadie and Siltala were the top scorers. The rebounding for Queen's was capably taken care of by the club's three tall men, Bill Anglin, Danny Bozic and Bob Breightaupt.

BACK ROW, left to right: D. Normon, D. Wilson, R. MocDonold, Joke Edwords (coach). KNEELING: Norm Thompson, Jim Petropoulus

The intercollegiate golf team placed third in the Intercollegiate Golf Tournament which was held in Kingston on October 5th. Western placed first and Queen's in placing third were only one stroke behind the second place Varsity team. Top man for Queen's was Norm Thompson who placed fifth. Queen's also won both ends of a home and home series with Carlton College.

## INTERCOLLEGIATE GOLF

### INTERCOLLEGIATE TENNIS

Left to right: H. Conn, P. Bornord, L. Mocdonnell, R. MacKoy, D. Low

The Queen's tennis team placed first in the Intermediate Intercollegiate Tennis Tournament which was held at O.A.C. in October. Outstanding Queen's player was Pete Barnard.

FRONT ROW, left to right: Bob Seright (caach), Jerry Steinberg, Eugene Varga, Spence Hodkinsan, Molcolm Fraser, Dennis Connan. BACK ROW: Grant Manery, Mike Vasil, Gord Maw, Grant Gibson, Bob Morrison, Jim Taylar, Neil McNeill (manager).

### **TRACK**

The Queen's track team made an excellent showing in the Intermediate Intercollegiate track meet this year. This was partly due to a decision to place all men on one team and to forego the usual practice of sending one or two men to the senior meet.

Gael runners made an excellent showing in the hurdles and the middle distances, with Spence Hodkinson leading the way. Hodkinson came out as the winner in the high hurdles and also in the low hurdles, and then added a second in the 440 yard run. Spence also teamed up with Morrison, Varga and Campbell to win the medley relay. Morrison added to the Queen's total by finishing second in the 220 low hurdles. Campbell was another Queen's man to gain a first place spot leading all contenders in the half mile, while teammate Cannon was fourth in the same event. Grant Manery was the top distance man for Seright's men coming second in the mile. Eugene Varga also scored in the track events with a third in the 440.

Queen's entries in the field events also carried off their fair share of the honors. Fraser won the discus throw and was second in the broad jump. Steiberg won the shot put and was third in the discus. Gibson came third in the high jump, while Taylor placed in the broad jump.

These individual marks all added up to a contending team, and the Tricolor were just nosed out for the title by OAC.

BACK ROW: Brian Bartels, Ed Kaenig. FRONT ROW: Garry Gael, Rabin MacKay.

### **BADMINTON**

## SKIING

Queen's ski team won the Ortawa-St. Lawrence ski meet, as Jake Edward's boys outscored six other teams.

Top man for the Tricolor was Arnold Midgely who was the winner in two events. He set a record in winning the downhili, and then idded the slalom title Gibson followed in second place in each of these events. The team as a whole led in these two events and then finished third in the jumping and fourth in the cross-country to win the team title.

Midgely also turned in an outstanding effort in the Intercollegiate meet, as he won the slalom and tied for first in the downhill to win the Alpine Combined Cribson was sixth in the downhill.

BACK ROW, left to right: Grant Gibsan, Jim Jackson, Hugh Harris. FRONT ROW: Chris Nawakawski, Jake Edwards (coach), Arnald Midgley.

BACK ROW, left to right: Jack Jarvis (caach), Erskine Simmands, , Paul Vandasius, Henry Clarke, Al Hyland (manager). FRONT ROW: Norm Erickson, Hugh Wood, Fred Gunter.

 $\mathbf{0}$ 

X

I

N

G

The Queen's boxing squad of this year were unable to keep the crown that the locals had won in 1956, and in the Intercollegiate Assaults the Gaels finished third behind the boxers from McGill and Toronto.

Two Queen's men won individual titles as Jack Jarvis' team was successful in getting five men into the finals. Henry Clarke, the most experienced of the Queens' crew was the winner in the 165 pound class, decisioning a Toronto boxer in the final. Fred Gunter was the other champ and he was the best in the 140 pound section. The other Queen's men who succeeded in gaining the final round were Norm Erickson in the 135 weight group, Erskine Simmonds at 155 and Paul Vindasius in the light-heavyweight class.

Hugh Woods was the loser on a close decision in the first night's bouts.

The Jarvismen were minus all five of the preceding year's individual champs, and so made an excellent showing for a team that was composed almost entirely of new-comers.

#### WRESTLING

The Queen's wrestlers came through with one of the best performances that a local team had made in the recent past and finished fourth, but they tripled the point total of the previous year's showing.

Brightest spot on the Gael roster was Ken Esseltine who won the 147 pound championship and in so doing he became the first individual champion from Queen's in five years. Ken was also voted the second best wrestler of the entire meet.

Jim Plummer was the winner of the consolation final in the 167 pound division. Although none of the other Queen's matmen won any laurels, they all put up good fights and in a couple of cases they lost close decisions to the eventual class champions.

This was a rather inexperienced team and so the showing was exceptionally good. While they will have a good base to build future teams on, the wrestlers suffered a great loss this year when Jim Saylor announced his retirement after the Intercollegiate Assaults. Jim has worked long and hard at Queen's for many years and will be sorely missed.

#### KEN ESSELTINE

First Champ in Five Years

BACK ROW, left to right. Jack Gregg, Bill Moss, Stu Langdon (trainer), Jim Saylar (coach), Hugh Allen. FRONT ROW: Jim Plemmer, Ken Esseltine, Doug Sanderson

# HOCKEY

The Queen's Senior Hockey Gaels had a very successful season despite the disease that has been common to all Queen's hockey teams over the past few years. That was the lack of fan support. Nevertheless, the Tricolor wound up with an excellent record of seven wins against only three losses and two ties.

Two of the three losses were to a pair of the top ranking college sextets south of the border, the St. Lawrence University squad and the one from Clarkson College. The only other team to beat the locals was the Ontario Agricultural College. The ties came in games with OAC and Ryerson Tech.

The Gaels came through with double wins over two of their opponents, McGill and the Royal Military College. The other three wins came from Ryerson, Hamilton College and in the last game of the season, Osgoode Hall.

Congratulations to the team and to their coach, Keith Flanagan.

### LEVANA ATHLETIC BOARD OF CONTROL

BACK ROW, left to right: M. McKinney, I. Hannah, D. Enright, B. Kinzinger, A. Casselman, M. McCullach. CENTRE ROW: H. Stewart, M. Grant, D. Desjardins (president), J. Reid, Miss Turnbull, M. Rapaway. FRONT ROW: N. Chauinard, J. Waollcambe, B. Scatt.

The Levana Athletic Board of Control, L.A.B. of C., has for its purpose, the administration and promotion of Intramural and Intercollegiate Athletics for Queen's women. With the variety of sports offered we feel that there is a sport for everyone and that every girl should take part in at least one sport.

On the intercollegiate scene this year the girls did not succeed in capturing any championships but they are to be congratulated for their fine work. The volleyball and badminton teams placed second. The basketball team came third and the swimming, archery and tennis teams placed fourth. The L.A.B. of C. sent a ski team to Montreal this year but due to unforeseen circumstances the girls were unable to participate. If Queen's is blessed with skiiers next year then another step will be realized in making a more extensive athletic program.

The L.A.B. of C. held again this year a reception for the Freshettes to introduce them to athletics at Queen's. The L.A.B. of C. also sponsored their third annual ice revue, "Queen's on Ice." The show provided delightful entertainment for all.

Many thanks to all those who participated in athletics this year. We hope you had fun, and will continue to take part in your athletic endeavours.

Alacardy Alegiardina
bes. L. A. B. of C

#### THE COACHES

MISS MARION ROSS, M.A.
Assistant Professor of Physical Education

Miss Marion Ross, who hails from Picton, N. S., attended high school in Lethbridge, Alberta, obtained her diploma in Physical Education from McGill, a B.A. from Queen's and an M.A. from Columbia. Before joining our staff she was director of Physical Education for the Brantford Y.W.C.A.

While attending university, she was outstanding in basketball and track. During the past twenty years she has coached many of our intercollegiate sports.

Miss Ross claims that "Girls entering Queen's show an improvement in fundamental skills in sports over earlier days. We hope that more students will participate in our intramural program."

Miss Dorothy Leggett, from Ottawa, Ontario, received her senior matriculation from the Ontario Ladies College, Whitby, her B.Sc. (Phys. Ed.) from McGill and her M.Sc. (Phys. Ed.) from the University of Wisconsin.

From her experience in competitive swimming Miss Leggett has contributed greatly to our intercollegiate swimming team. She also coached the intercollegiate volleyball team this year.

Her comment on our girls' sports is that "The girls at Queen's rank top honors in sportsmanship. They lose as gracefully as they win, one of the prime tests of character."

MISS DOROTHY LEGGETT, B.Sc., M.Sc. Lecturer in Physical Education

MISS ANNE TURNBULL, B.Sc. (Phys. Ed.) Lecturer in Physical Education

Miss Anne Turnbull attended the vocational school and the high school in her home town, St. John, N.B. After receiving her senior matriculation she obtained her B.Sc. (Phys. Ed.) from McGill. Before she joined the Physical Education staff at Queen's this year she taught for a year at K.C.V.I. here in Kingston.

Miss Turnbull, who participated in all sports throughout high school and university, played intercollegiate basketball and archery while at McGill. This year she coached our tennis, badminton and basketball teams.

Miss Turnbull is particularly impressed with the cooperation and enthusiasm of the girls entering sports at Queen's.

#### SPECIAL AWARDS

The Levana Athletic Trophy was won by '58 for coming out on top on the intramural scene. '60 fought a hard battle, and gave '58 very close competition. For the past three years, '58 has been very active in all the sports and came very close to winning the trophy last year. Congratulations '58.

THE ALFIE-PIERCE TROPHY

THE LEVANA ATHLETIC

BOARD OF CONTROL PLAQUE

The L.A.B. of C. is proud of its award winners this year. Marianne Lovink won a plaque for winning her event in the inter-collegiate swimming meet and Dorothy McLaughlin distinguished herself by winning the Alfie-Pierce Trophy. This is the second time in the history of the Alfie-Pierce Trophy that a girl has been honoured.

FRANKLIN PICKARD

#### TRICOLOR STAFF

The Tricolor is a pictorial record of a year at Queen's. Tricolor '57 commemorates fifty years of publication of yearbooks at this university. It also attempts to show the students in their many varied activities, some somber, others gay. Yearbooks are collections of memories. Over 1400 Queen'smen have purchased copies of Tricolor '57. I hope that all of them find pleasant memories in this volume.

To publish a yearbook is an enormous undertaking. It takes many hours of hard work. I have had a staff which has been more than willing to serve. The photographers have worked long and hard to produce pictures which are of a superior quality. The various editors and the people who worked for them have done their job well. My extremely capable business manager and her staff have done a marvelous job of selling this book, both to the advertisers and to the students. To all who have had anything to do with this book, I extend my sincerest thanks.

#### QUEEN'S JOURNAL

From behind the batteries of typewriters in our well-populated office, we on the Journal's editorial staff have had the opportunity once again this year to survey the passing scene at this very busy University. I think that all of us are probably of the opinion now that our Journal work permitted us to occupy box seats for the spectacle, and I know most of us feel deeply that the Journal has made a magnificent, if intangible, contribution to our university careers and to our lives

For some of us, the Journal has now become a thing of the past. But, if this be so, it is true only in the sense that we will no longer concern ourselves with headlines at 3 a.m., or setting up gag pictures, or chasing down details for news stories, or writing hasty editorials to fill unforseen gaps on the back page. Vicky will no longer type out Clancy's sports column for him twice a week. Neil will no longer beg the editors to keep engraving costs down, and Rob will no longer worry about misplaced commas or the spending habits of Queen's co-eds.

All this pales into insignificance, however, before the fact that no one among us will ever cease to consider himself or herself a Journal Staffer; an attitude which, to all of us, will imply membership in a great club which was in existence long before any of us came to Oueen's, and which will continue to be in existence long after our departure. Other organizations have claimed the title, but I think the Journal can justifiably call itself "The Best Damn Fraternity at Queen's." To everyone who helped to make the Journal this way, editors, photographers, cartoonists, reporters, and just plain helpers, may I say humbly, thank you. I hope you enjoyed it all half as much as

#### CHRISTIAN FELLOWSHIP

"To Know Christ and to Make Him Know" is the motto of Q.C.F. This is more than a hackneyed cliche; it expresses purpose and function, providing a chart and compass for all our lives. "Go ye into all the world and preach the gospel" said Christ. And Christ is that gospel. This is not just meat for preachers or missionaries, it applies to each and every one of us in whatever phase of life we choose to follow.

Knowing that to keep our faith and witness alive, we must constantly give it away to others, Q.C.F. provides an organizational framework wherein Christian students, who have dedicated their lives to Christ, may witness the saving grace of our Lord on campus. In doing so, we believe that we too can "increase in wisdom and stature, and in favour with God and man."

#### B'NAI B'RITH HILLEL FOUNDATION

The Hillel Foundation is linked with the name of the gentle sage, Hillel, of the first century B.C.E., who had been one of the outstanding scholars and teachers in Jewish history. Hillel's patience and modesty, his devotion to tradition and learning, marked him as the ideal symbol of the spirit of Hillel Foundations. The B'Nai B'Rith Hillel Foundation at Queen's University is a unique and proud member of the family of Hillel Foundations throughout North America and in England, Israel and South Africa.

The student group at Hillel is organized democratically and shares in the responsibility of Hillel's operation and program development. This program embraces a wide and varied range of religious, cultural, social and social service interests. The Foundation at Queen's strives to facilitate optimal campus and community relations by the promotion of wholesome fellowship and intergroup relations. Serving as the liaison between the Jewish student body and the historical Jewish heritage, it seeks to lead Jewish students towards valuable contributions to the campus, community and society-at-large, through enlightened citizenship.

BACK ROW: J. Stockhouse, D. Allon, J. Plummer. FRONT ROW: D. Mitchell, N. Snelling, P. Whitney (Pres.)

#### **CANTERBURY CLUB**

The program of the Queen's Canterbury Club this year has consisted of a series of discussions held after Evenson in St. George's Hall and a Communion Breakfast once a month in St. James. Dr. Krumm, of Columbia University, discussed the work of the Episcopalian Church on the camppus of Columbia. Rev. Desmond Brown led a discussion on "The Student in Campus Life" and Rev. Henry Hill led a discussion on "The Student as a Citizen." A panel consisting of Mrs. Evans, Miss Laird, Miss Hall and Rev. Bowen considered some of the problems encountered by marriage counsellors and Bishop Evans gave some instructions on proparing for marriage. Miss Hasslam, of the Elizabeth Fry Society of Canada, spoke of her experiences while aiding in the work of penal reform.

A weiner roast was held in the fall term and a combined skating party and dance was held in the spring.

We would like to take this opportunity to thank our Chaplain, Rev. Charles Staples, and our staff advisor, Dr. Ross, for their guidance during the past year.

#### **BIOLOGY SOCIETY**

Queen's Biological Society meets bimonthly throughout the academic year. Membership is open to staff members of the Biology Department and all interested students at Queen's. The year's activities are designed to cover the wide field of interests included under the heading of Biology.

This year a field trip was arranged to Queen's Biological Station at Lake Opinicon where a number of tours were conducted by staff members. Speakers during the fall term included Dr. T. K. R. Bourns on Serology as a Biological Tool. Dr. Vittorio of the Defense Research Board of Canada, speaking on The Probable and Potential Effects of Radioactivity on Mankind

During December a Cornell weekend was organized for interested Biology students. The aims of the trip were: (1) To attend lectures and observe life at a large American university. (2) An understanding of the facilities available for research in the Biological field at Cornell.

BACK ROW: L. Leafloor, B. Blair, J. Murray, B. Howe, R. Hadcock, T. Whyte. FRONT ROW: M. Rapaway, L. Showman (Choirmon), J. Jerome, J. Isaoc. ABSENT: G. Emery.

#### STUDENT CHRISTIAN MOVEMENT

The Student Christian Movement is an "Open Movement," open to all who will tolerate different viewpoints, and who desire to share in a community of life and thought in the university. Its work is auxiliary to the Church and it is an interdenominational, not an undenominational movement. At the heart of the SCM there is a firm conviction that Jesus Christ is the Lord of all life, and its aim is to have all meet in Christ; yet it considers the most serious threat to its purpose to be an assumed attitude of complacent Christian orthodoxy. Sincere enquirers - atheist, agnostic, and Christian alike - joined together in the search for answers to some of the ultimate questions of life, maintain freedom of opinion and discussion as the essence of our Movement

The activities of the Queen's SCM are many and varied: study, discussion, worship, and social fellowship In addition to Bible Study, a group this term has been investigating the methods of modern evangelism. Worship services are held weekly in Morgan Memorial

BACK ROW B Basserman, G Simmons, L Lucas, J Bolger, Casselman FRONT ROW D Hurley, Dr Earl B. Lisk (President), D McLelland

#### N.F.C.U.S.

The National Federation of Canadian University Students, as the name implies, is the national representative body of the Student Councils of Canadian Universities. Its purpose is three-fold:

1) The promotion of better understanding among Canadian students.

2) The promotion of a greater degree of cooperation and correlation among Canadian universities.

3) The provision of national representation to and communication with other national groups (Government etc.), and representation abroad. (International Student Conference, International Union of Students, etc.).

The Queen's Iocal NFCUS Committee is comprised of two representatives, a junior and a senior, from each of the Faculties of Arts, Levana, Medicine and Science, and one from Theology.

#### MILLER GEOLOGY CLUB

The Miller Geology Club, one of the oldest student organizations at Queen's, exists as an institution to create and to develop interest in the earth sciences, and to serve as a basis for fellowship among students, staff and members of the geological profession. In line with this, speakers representative of exploration, development and production phases of geology are enlisted for bi-weekly meetings. During the current year, the talks have been mostly concerned with the rapidly expanding oil industry of western Canada.

Highlights of the '56-'57 programme included a lecture by Dr. Hume, president of the Geological Society of America, the undergraduates Councillor's Night held in conjunction with the Mining and Metallurgy Club, and a club dance as a spring finale.

B. Bowen, Dr. Love, P. Herzberg (President), J. Murroy.

D. Horn, Dr. Usher, K. Culver (Pres.), R. Jury. ABSENT: A. Rickoby.

## MATHEMATICS AND PHYSICS CLUB

Our Our club has continued to enjoy increased membership and support and has remained an active centre for interest in Mathematics and Physics. This has certainly been due in part to our affiliation as a student chapter of the Canadian Association of Physicists.

This year we heard talks by Dr. MacDonald and Dr. Ahmed of the National Research Council, Ottawa, Dr. Elliott and Dr. Fryer of RMC, Prof. Harrower of Queen's and Prof. Duckworth of McMaster. Other activities included movies on the British atomic energy project, talks by students and a trip to the Defence Research Board in Ottawa.

#### **GLIDING CLUB**

Gliding is simply — motorless flying. Soaring is the art of remaining aloft, and increasing your height (without reliance upon an engine) by using upward currents, of air in the manner as does the hawk, which one so often sees high above the countryside.

As yet the sport remains comparatively unknown here and Queen's is unique in being the only university in Canada, and very probably, in North America, where there is a Gliding Club.

The Queen's Gliding Club was formed after World War II by Veterans and has been operating in winter and summer ever since. Quite a number of Queensmen have had their first experience of flying here and many who have continued, on the basis of their gliding training, to obtain powered aeroplane licences at less cost and training than by conventional methods.

The Club owns three high performance gliders, two of which are two seaters, with dual controls. It is in these that the student pilot learns to fly under a qualified instructor.

D. Ourom, E. Sounders (President), T. Hoinsten, H. Jonzen.

BACK ROW: M. Vandewater, M. Poge, B. Sporks FRONT ROW: H. Champion-Demers, (president), Prof. Shortliffe, H. Stollary.

#### AMATEUR RADIO CLUB

"Amateur radio is a scientific hobby, a means of gaining personal skill in the fascinating art of electronics and an opportunity to communicate with fellow citizens by private short wave radio."

Queen's Amateur Radio Club, operating VE3VX in Clark Hall, endeavours to satisfy the wants of the radio enthusiasts and licensed amateurs of the campus. Morse code practice, basic radio theory, and communication procedure are taught to the beginners. The station is equipped with a Collins 32V2 transmitter and a National HR50 receiver.

This year, the main interest was the construction and operation of a rotary beam antenna. World-wide communication was considerably improved and at present VE3XV has talked with amateurs in eighty-five countries. A Canadian university net was organized and entries were made in several contests. Features of the bi-weekly meetings were films and interesting talks by various club members

#### FRENCH CLUB

The main purpose of the French Club is to provide an opportunitly for all interested students to gain a speaking knowledge of French and to practise using it Meetings, which were held monthly, were on an informal basis, in the form of informal gatherings, sing-songs, a dance, and a skating party. The Club sponsored three films, "Knock," "Tic-coq" and "Jours de Fete".

After being absent from the campus for the 1955-1956 term, the Club is much indebted to its president, Frank Champion-Demers and his capable executive for the reorganization this year

BACK ROW D. Allen, C. Boyd FRONT ROW: B. Mosh, J. Hay (president), E. Todosiev.

BACK ROW: D. Roveri, J. Roudzens, A. Lepinis, I. Deetken, H. Eichner. FRONT ROW: A. Bitenieks, B. Sparks, M. Bruchmonn (president), L. Funke, H. Lenz. ABSENT: Dr. Laird, Dr. Seidler, K. Kauffmann, M. Funke, L. Curtis, E. Joonnis.

#### GERMAN CLUB

The German Club began the year with the election of officers for the session Elected were: Monika Bruckmann, president; Barbara Sparks, secretary and Mary Louise Funke, social convenor. At the same meeting, the German exchange students, Helga Lenz from Hamburg, Germany, and Dr Ingo Seidler from Vienna, Austria, introduced themselves with a few words about their homeland and their trip to Canada. At the next meeting Barbara Sparks gave some impressions of German university life and Dr. Eichner read poetry by Rilke. The programme concluded with the singing of some German folk songs. In Early December, the "Weihnachtsmann" visited the German club at their annual Christmas party. The Dunning Trust lecturer, Dr. Rudolph Pechel, German editor and publisher, spoke to the club in January about literary life in Berlin in the 1920's. The session concluded with a visit from Dr. Gerwin, the Cultural Attache of the German government in Ottawa who came in February to show slides on Hamburg.

#### WORLD UNIVERSITY SERVICE

The activities of the Queen's W.U.S. Committee have been truly international in scope this year.

The return of the two W.U.S. summer seminar scholars in the fall sparked an interest in W.U.S. that has lasted all year. Jim O'Grady toured Russia and Vicky Borota toured Yugoslavia, both of them bringing back a wealth of impressions. They told of their many experiences both in public lectures and in Journal articles. The interest they stirred up may be judged by how hoarse they became just answering questions around the campus.

Treasure Van, a WUS-sponsored sale of imported gift items from more than 10 countries appeared on the campus in October. The featured country of this year's Treasure Van was Mexico with a stress on exquisite Mexican leather and silver work. The sale was a great success under the direction of Harry Osser.

The Share campaign was launched January 15 by campaign director John Cartwright. Based on last year's success, the goal was set at \$2,000, higher than ever before. The committee was overjoyed when the goal was surpassed by more than \$100. All the money raised in this student and faculty canvass will be channeled through the international office in Geneva to student aid projects in Indonesia, Nepal, Hong Kong, Japan, India and Africa.

BACK ROW, left to right: R. Broughton, S. McCallum, J. Tilley, D. McLelland, P. Herzberg, A. Ashcroft, J. Woollcombe, A. Hayes, H. Osser. FRONT ROW: J. O'Grady, Miss Staples, Dr. Carter, P. Clapp (president), V. Borota, J. Cartwright. ABSENT: H. Whitely, A. Casselman.

BACK ROW, left to right: J. Downey, D. Lamarre, L. Cadieux, J. Doyle, R. O'Shoughnessy. FRONT ROW: Rev. J. G. Honley, M. Vandewater, N. Sherman, B. Basserman, D. Kilgor.

#### **NEWMAN CLUB**

Newman Club began its year of activities with the customary Freshman Reception, which was capably handled by the alumni club. In the special events department, there was the Newman Ball, in November, a Christmas Party, and, instead of the usual graduation dinner, there was a party held at the nurses' residence. All three events were very successful. Like last year, Newman Nites were held on alternate Sunday evenings at the Jeanne Mance Nurses' Residence, the evenings beginning on an intellectual note and ending on a social one. On the other Sunday evenings study groups were held in the homes of members of the alumni club. Once a month the students participated in a dialogue mass, followed by a communion breakfast at which there was usually an outstanding speaker. Thanks to Norm Sherman and his capable executive the year was a highly successful one.

#### DRAMA GUILD

The Drama Guild is intended to foster campus interest in dramatice and to provide students with practical experience in all aspects of theatrical production. During the 1956-57 term, the Guild produced Romeo and Juliet in the Fall term and "A Question of Fact" during the Winter term. In addition six one-act plays were produced, three in the fall and three in the winter.

The Radio Workshop of CFRC, which is a branch of the Guild, was extremely active during the past year. Its Thursday night programs were enjoyed by all.

BACK ROW, left to right: E. Ten Broek, J. Holmes, B. Beattie, J. Tilley. FRONT ROW: S. Kindle, Dr. Angus, J. Bethune (president), A. Hayes. ABSENT: J. Devine.

Left to right: Dr. Hilborn, J. MocGregor, M. Duby, R. Goddord (president).

#### SPANISH CLUB

The Spanish Club encourages the speaking of Spanish among students and promotes understanding of Mexican and Castillian cultures. Monthly meetings were held throughout the year, with discussion centered around interesting topics pertaining to the Spanish world.

#### REVUE GUILD

During the 1956-57 term, the Queen's Revne Guild presented "Daddy-Oh," a rollicking musical with a campus theme. Script for the production was written by Don Gollan, a Queen's grad, bries were by Bey MacKay of Arts '59 and music by Paul Chabot Jack Watts was producer with Bill Wallace as director Lead roles were played by Alec Catheart, as "the boy from Forest Hill," Judy Isaac as "Chief Lemon," Di North as "Lemon Peel" and Jo Smith as "Freshie" Jo Thwaites, Les Hartford, John Spence and Ron Stewart excelled in supporting roles.

Women throughout the imaginative plot were such highlights as the Queens Kickline led by Di McLennan, the Collegaires and an innovation in the form of Calvpso Dancers. The "Two Dots" once again rocked the house with their rendition of "Mountain Dew," and "Daddy-Oh."

Music ranged from tender ballads to ronsing marching songs in the best college tradition. "Women Are Here To Stay," "Nobody Studies 'till Spring," and "Daddy-Oh" were only a few of the wonderful songs heard this year.

Left to right: W Wolloce, J. Isoac, J. Devine (president), J. Wott.

Left to right: H. Lightbody, G. Skerrett, A. Dorlond, D. Frome (station manager).

#### CFRC

CFRC is the Queen's radio station which broadcasts on 'Thursday, Friday and Saturday nights during the school year. The station was originally intended as a laboratory for electrical engineering students but it now provides students of all faculties with an opportunity to receive training in the operation and management as well as opportunities to entertain. During the past year the FM transmitter was again put into operation and the old familiar station call of "Radio Station CFRC 1490 on your dial," echoed throughout the ether

#### QUEEN'S PROGRESSIVE CONSERVATIVE ASSOCIATION

The Queen's PC Association was organized in the fall of 1956 and was the first campus political club to affiliate with a national party. The Queen's group is associated with the National Student Federation and sent two delegates to the National Convention which was held in Ottawa during December of 1956 and at which John Diefenbaker was elected leader of the party.

In addition to its regular meetings, at which students were informed of Conservative policy and debated the relative merits of the various political parties, the Queen's group entered the Model Parliament elections and managed to squeeze out a one seat majority in the House. Brian Smith, a post graduate student in History, led the party in Parliament but the combined forces of the Opposition resulted in the parties' defeat on a want of confidence motion after one bill had been passed.

The association looks forward to a year of increased activity during 1957-58 when Art Schwartz of Meds '59 will direct its activities.

BACK ROW, left to right; K. Hilborn, F. Pickard, A. Schwartz. FRONT ROW: K. Walker, M. E. Rogers, J. Holmes (president), D.

Left to right: R. McLarty, D. Phippen (president), R. Herr.

#### **CAMERA CLUB**

A highly successful year was enjoyed by the Queen's Camera Club during 1956-57. Meetings were held at which various photographic principles were discussed by the members and lectures given by members and members of the faculty. During the fall term an excursion was made throughout the local countryside.

Highlight of the winter term was the annual salon. While participation in the black and white section was very low, some excellent color slides were displayed and what was lacking in quantity in the black and white section was made up in quality.

#### **DEBATING CLUB**

During the fall term, the Debating Club held several inter-club debates to encourage new members and encourage more experienced debators to polish up their styles. More of these debates would be of benefit in the future.

Due to a lack of funds, the club decided not to enter the Inter-University Debating League even though good experience had been gained last year. For various reasons we were unable to arrange debates with both Osgoode Hall and R.M.C. in the first term.

The club once again organized a highly successful Model Parliament session and for the first time in the history of the Parliament at Queen's, an election was held. The Progressive Conservative Party, led by Brian Smith, managed to eke out a one seat plurality over the Feminine Freedom Fighters and formed the government.

Due to several unforseen difficulties, the dance sponsored by the club in February to raise funds just about met expenses. Thanks to the A.M.S. the club was able to continue its activities by obtaining an additional grant.

Ian McGregor and Robert McLarty represented Queen's at the McGill Winter Carnival in February. Although the team was unsuccessful it gained valuable debating experience on the motion, "Resolved that a Line Should Be Drawn."

Queen's defeated Carleton at a debate here in late February.
The club would like to thank Professors Smethurst,
Meisel and Gibson for their kind assistance this year in helping to make the functions of the club as successful as they were.

INE people are a product—nat merely of scholarship—but rather of a well rounded education of mind and body and character.

Just as men and wamen develop in knowledge, in strength and in good human relations, so also do institutions grow. They do not spring up like Topsy. They are built by the striving and purpose and courage of men and women, with a share of failure and success, and the exercise of vision, judgement and leadership.

Sa da cur industries grow and prosper, and sa may we all develop and succeed

#### NO CEILING IN ENGINEERING

• Every year brings challenging new demands to Canadian engineering. The nation's rapid industrial expansion... the need for more advanced scientific defence techniques... the desire of Canada's people for better living through the products of engineering... all these keep the horizon steadily broadening for the country's engineers.

Matching the new demands are new engineering advances that give promise of further development with no limit in sight. To the student with ability in maths and science, Engineering offers a stimulating and rewarding future.

YOU CAN BE SURE...IF IT'S

# Preparing for a lifetime of progress

Wherever you go in Canada today you can see the work of the professional engineer whose vision, initiative and orderly thinking are vital to progress in this swift-moving technological age.

Whe

When you flip a switch at home an amazingly intricate system of power equipment goes to work for you.

Electricity cannot be made and stored—it is made and delivered instantly at the speed of light. In effect, you reach back from your switch through wires, meters, transformers, substations, switchgear, generators, turbines—right to the very source of power. This incredible process . . . safe, reliable and low-priced . . . has been made possible through

the skills of professional engineers.

Less than 20 years ago only about

Less than 20 years ago only about one in 700 workers was a graduate

engineer . . . today there is 1 to every 150 workers. At Canadian General Electric we employ nearly 1,000 engineers—approximately one to every 20 employees—and more are constantly needed to keep pace with the increasing demand for equipment to generate and transmit electric power and the many products which put it to work.

For over 50 years this Company has conducted a training programme for engineering graduates. In our plants, they acquire an intimate knowledge of the theoretical and practical principles of manufacture, design and installation. Known as the "Test Course" it has provided important postgraduate training for many of today's professional engineers

The future holds many engineering opportunities in Canada, where people are so electrically minded that the demand for power doubles

every 10 years! Right now engineers are busy on products, projects and in industries that didn't even exist a few years ago, when many electrical developments, such as television, were practically unknown.

Canada's first atomic electric power plant presents one of the greatest engineering challenges of our time. It is being built by Canadian General Electric for Atomic Energy of Canada Limited and

Ontario Hydro. This is just one of many great projects that exemplify the major role being played by professional engineers . . . key men in our nation's progress.

Progress Is Our Most Important Product

## canada and You

Whatever your plans for the future, as a young Canadian, you stand in a particularly advantageous position. Canada is on the move, with huge power developments, new pipe lines, the seaway begun, and other large projects underway. And these developments are matched by the establishment of hundreds of smaller manufacturing plants and by the growth of older firms throughout the whole of Canada. This growth means opportunity to those who prepare themselves to meet the challenges that lie ahead.

Standing as you do, on the threshold of a new era, you are Canada's hope for the future . . . and that future has never appeared brighter.

# The Forward Look

### is a symbol of achievement...and a promise of great things to come

Today, throughout Chrysler of Canada's Forward Look family, you find advancements so modern that many are still only drawing-board dreams to other manufacturers. Many of these advancements, such as push-button automatic transmission, Full-Time power steering, and Total-Contact brakes are relatively recent, and, of course, readily associated with the youthful, progressive spirit of the Forward Look.

But, did you know that the first four-wheel hydraulic brakes . . . first high-compression engines . . . first adjustable front seats . . . first safety-rim wheels . . . and a score of other notable automotive "firsts" have also been associ-

ated with this *Forward* Look spirit over the past 30 years? And did you know that this same spirit has meant significant advances in truck engineering and industrial engineering as well?

There was no famous Forward Look name, or symbol for it, back in the earlier days of Chrysler of Canada's history. But the youthful spirit, the looking ahead, have always kept Chrysler in the forefront of progress. And we like to think that this same pioneering urge motivates all our young people as they move from the academic to the business world. For it is this that promises great accomplishments for all of us, whatever our chosen occupations, in the years that lie ahead.

You're always a step ahead in cars of the Forward Look

## EATON'S OF CANADA SERVING CANADIANS FOR OVER 85 YEARS!

Since 1869 EATON'S has been a household word to hundreds of thousands of Canadian families.

But MORE than a word—EATON'S has become a symbol of friendly, helpful and dependable service to generations of satisfied customers.

For over 85 years Canadians have shopped with confidence at EATON'S where they know they are protected by our famed guarantee:

"GOODS SATISFACTORY OR MONEY REFUNDED"

#### EATON'S OF CANADA

LARGEST DEPARTMENT STORE ORGANIZATION IN THE BRITISH COMMONWEALTH

## AN OPPORTUNITY FOR UNIVERSITY Students

... to qualify for Commissioned Rank in the RCN (Reserve)

Entry is open to male undergraduates attending Canadian Universities and Colleges who are over 17 years of age and are medically fit.

You are entered as probationary cadets on the Active List RCN (R) and undergo a 3-year course of training at Naval divisions during the academic year and afloat and ashore during the summer months.

## NOW...BEFORE YOU LEAVE SCHOOL

Before you leave school is the time to establish a banking connection. Whatever business or professional career you may have in mind, you will find that an early association with The Bank of Nova Scotia will be most helpful in the years to come. Start with a savings account . . . no amount is too small . . . and it is never too early to open an account.

CONCRETE FRAMES made with CANADA CEMENT

Competitive bids and cost analyses prove that reinforced frame and floor construction can show savings up to 25%. Building with reinforced concrete allows frame and floor construction to proceed simultaneously. Plumbers, electricians, masons and other tradesmen can do their jobs as structural work proceeds. The saving of time is considerable. Because reinforced concrete construction is durable, fire-safe, moderate in first cost and low in annual cost, it is ideal for hotels, hospitals, schools, factories, apartment and office buildings.

This famous trade mark, known and respected all over the world, symbolizes the reasons why so many of Canada's most important installations are equipped with JENKINS Valves. The experience of satisfied users has proved over the years that this familiar Jenkins Diamond Mark is an assurance of:

- ◆ Expert design and engineering
- ◆ Material of the finest quality
- ♦ Step-by-step inspection in manufacture
- ◆ Top performance on the job
- ◆ Unexcelled dependability and endurance
- ◆ Lowest maintenance cost

Making quality valves is our business... our ONLY business.

And the Jenkins Diamond Mark is your guarantee that the valve on which it appears has been built to do its job better, longer and with less upkeep than any other valve your money can buy.

Sold through leading industrial distributors.

### **ACKNOWLEDGMENTS**

At this time the editorial board unshes to pay tribute to a number of people whose kindness and generosity has contributed greatly to the publication of Tricolor '57.

THANKS—to Don Nicholson for his invaluable assistance during the fall term.

- —to Marie Pollitt of Wallace Berry Photography for her wonderful assistance in supplying the graduate portraits
- —to Wallace Berry and the remainder of his staff for the assistance and advice which they have so willingly given.
- -to Dr. Brockington for writing the dedicatory message.
- —to Herb Hamilton, Mrs. Lewis, Mrs. Robson and to the Padre for their advice and moral support.
- —to Jim O'Grady, and all the rest of the Journal staff for all the support they have given us.
- —to Dave Dewar, for supplying us with photographs which we would not have had if he had not had them.
- —to Bill Raffan, Frank Maine and Bill Tupper for photographs which they supplied.
- -to all those who submitted candid snaps.
- —to Guy Simser for the cartooning which separates the Students' Activities Section
- —to our sales staff for establishing another new record in book sales; this printing is 1410 copies the largest in history.
- —to Ross Morton and John Scanlon for supplying us with Who's Where proofs so early last fall.
- —to Vern Napier of Mahood's for obtaining those photographic supplies which we always needed at once

#### **ADVERTISING**

Without advertising and advertisers, it would be almost impossible to produce this yearbook. The absence of advertising would necessitate a considerable rise in the price of Tricolor to each student.

Remember — these are our advertisers. Their support has been wonderful. Patronize them whenever possible.

## **INDEX**

Dedication	4
The Last Fifty	6
Graduates	
Levana	22
Arts	36
Commerce	48
Theology	50
Physical Education	52
Medicine	56
Applied Science	66
Campus Life	92
Residences	128
Sports	140
Activities	180
Who's Who	211

### **KEY TO DIVISION PAGES**

<b>Graduates,</b> left page— right page—	the whole man; the freshman and the established graduate Grant Hall
Levana	the whole woman; the coed studying at her desk and the secretary typing Ban Righ Hall
Arts	the Artsman with book and pen sitting beneath a book the Douglas Library
Medicine	the doctor with scalpel leaning over his operating table; a lamp is beside him the Hospital (KGH)
Applied Science	the engineer holding a suspension

a concept of engineering
